Dear Parent/Carer

Leadership of Hollybrook Junior and Hollybrook Infant Schools

You may recall me writing to you back in September explaining that following on from the successful Ofsted inspections of both schools last academic year, we felt it was time to review the governance structures across both schools and put in place a structure that supports the further development of the schools.

A single governing body has now been put in place and the reasons for combining the governing bodies were;

- To bring a consistent approach to teaching and learning for children and for the community across both schools and to link the learning and transition between Key Stage 1 and Key Stage 2. This would create a seamless learning pathway for pupils from year R through to Year 6.
- To create a leadership structure driving both schools towards outstanding.
- To be able to track pupil progress and wellbeing across both Key Stages.

The governing body has decided that in order to achieve the above aims it will create the role of a single Headteacher across both schools and is inviting applications from existing staff from the Hollybrook Schools.

I will keep you informed as to progress but if you have any questions, please do not hesitate to contact me at governors@hi.jetrust.org

A handwritten signature in cursive script that reads 'J. Jones'.

Jenny Jones
Chair of Governing Body
