Dear Mrs Wood, the staff and children of Hollybrook Infant School

Thank you so much to all the children for buying drinks bottle holders to raise funds for JDRF and to Mrs Wood and all the staff (particularly Mrs Atton) for being so supportive of Belle's Mum. This year, you raised a fabulous £425 and Belle's Mum was very clever in donating this at a time when it could be matched so the fabulous £425 became an amazing £850!

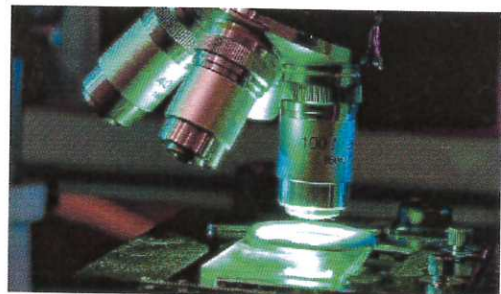

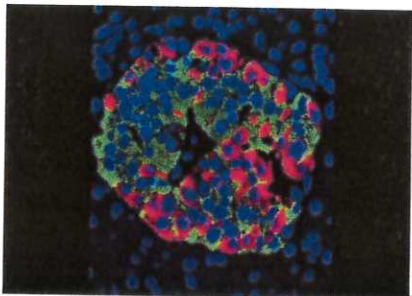

Your donations help support some excellent scientists in their search to cure, treat and prevent for type 1 diabetes and you might be interested to know how JDRF might use this donation.

- £10 could pay for some special fluorescent dye to make looking at cells easier
- £15 could pay for a laboratory coat and a pair of special gloves for a scientist so that they can do their work safely.
- £100 could pay for the chest x-rays of someone taking part in a clinical trial to make sure they are healthy before they take part.
- £850 could buy 85 hours use of a very special laser-powered microscope

Thank you again for helping this vital work to continue.

With best wishes

Sue Perrin
